SAND.SALT.

SURE.SUN.

Youthful, Energetic, Active, and just plain FUN. That is the attitude encapsulated in this new Ocean Lifestyle Brand. But don't let that fool you! Along with edgy, trendy art and graphic design, our apparel and products are also tough, protective, and environmentally responsible. Featuring UV-certified, rapid dry technologies, you can feel confident that our garments will defend you from the rigorous effects of the Sun. Whether your water skiing, surfing, sailing, or just kicking back on the beach, no worries. Sand Salt Surf Sun has got your "back". Now get back to playing.

### APPAREL TECHNOLOGIES YOU CAN TRUST :

PURE-tech™ is technology that keeps you cool and dry every time you wear it. PURE-tech™'s intelligent design delivers superior moisture-wicking features shown to improve the body's core performance. Our UV-certified fabrics dry rapidly and maximize absorbency. PURE-tech™ is permanent and proven to last, providing effective moisture-wicking capabilities throughout the life of the garment. Wash after wash, and game after game — PURE-tech™ stands up to the toughest athletic challenges, keeping you cooler and dryer longer than non-performance apparel.

M-Shield keeps our fabrics fresh, attractive and ready for more. Our Zinc based, aqueous technology enhances durability without impacting thermomigration. M-Shield technology is Oeko-Tex Standard 100 certified and BlueSign System approved for sustainability.

UPF+ Our fabrics are enhanced with built-in sun protection. The Solar Performance line is ideal for team sports, workouts at the gym, and any high endurance activity. Featuring up to UPF +50 solar protection, the Solar Performance fabric is lightweight, comfortable, and sure to keep the sun's rays from penetrating through to your skin.
